

Nbend-260

High Performance Microwave Coax Cable

Product Description

Superlink Nbend series is high performance semi-flexible replacement cable. It is more flexible than ordinary semi-flexible cable. The outer conductor of Nbend is helical wrap of silver-plated copper. The helical tape outer conductor minimized electrical length while bending and achieve lower loss. Nbend has been widely used for microwave interconnection, RF test and commercial telecom.

Feature & Benefit

- Solid PTFE+SPC Foil
- Better bending performance
- Equivalent to Tflex-405
- Replace to MultiFlex-86
